	Eng.	Shop.	Ry.		Eng.	Shop.	Ry.		Eng.	Shop.	Ry.
Aaron, Obituary of Charles F.....	639	483	699	Allison, L. R. W.: Railway Formulas.....	524			Armstrong Bros. Plant, Die Sinking and Shop Practice in the. Ethan Viall.....	284	188	284
Abbott Ball Co.: Tumbling Barrel.....	1038	710	1038	Alloy, A Non-Shrinking.....	399	263	399	Articulated Locomotives, Foreign. A. R. Bell.....	263		
Abbott, Paul W.: Don'ts for Screw Machine Operators.....	230	150	230	Alloy of Iron and Thorium, A New.....	7		7	Artisan School: Combined Bench Center and Center- ing Machine.....	512	352	512
Abrasive, "Corubin," A New.....	694	478	694	Alloy, Receipt for a Non-Shrinking.....	899	611	899	Asbestos, Supply of.....	792		
Abrasive Power of Grindstones.....	634	434	634	Alloy Steel, Heat Treatment of.....	112	72	112	Ash, H. R.: Substitute for Metal When Making Accurate Lay-Outs.....	57	33	57
Acceleration, Formulas for Train. Newton Wright.....	530			Almond Mfg. Co., T. R.: Almond Geared Drill Chuck.....	498	338	498	Ashcroft Mfg. Co.: Ashcroft Valve Grinder, Breast Drill, etc.....	780	540	780
Acceptance of Authorities, Blind. Donald A. Hampson.....	50	26	50	Alpha: Nicked Tooth Milling Cutter.....	659	443	659	Assembling a 24-Inch Engine Lathe. Alfred Spangenberg.....	253	135	215
Accidents in the Machine Shops. Don'ts for the Prevention of. H. P. Wentworth.....	939	635	939	Alternator, Repair Job on An. Don- ald A. Hampson.....	569	385	569	Assembling a 48-Inch Motor-Driven Planer. Alfred Spangenberg. 1.....	294		294
Accidents in the United States. Number of Railway.....	711			Alton, W.: Tool for Trimming Thin Tubing.....	56	32	56	2.....	381		381
Accuracy, The Necessity of.....	634	434	634	Milling Attachment for Machining Curve of Large Radius.....	310	206	310	Assembling Department, Reorganizing a Run-Down. Alfred Spangenberg. 1.....	706		
Acetylene Welding Apparatus, Port- able.....	595	411	595	Aluminum Castings, The Cracking of. Aluminum-Coated Sheet Metal in Place of Galvanized Iron, Use of.....	815	559	815	2.....	794		
Ackley & Abbey Machine Co.: Duplex Milling Machine for Pis- ton Rings.....	694	478	694	Aluminum Coins to be Circulated in France.....	44	20	44	Assembling Hammers, Machine. L. H. Georger.....	1022	694	1022
Special Milling Machine for Angle Slots in Piston Rings.....	694	478	694	Aluminum, Electric Welding of Cop- per, Brass and. A. E. Buchenberg.....	554		554	Assembling Machine Tool Units. Alfred Spangenberg.....	116		116
Acme Machine Tool Co.: The Acme Turret Lathe.....	332	223	332	Aluminum, Etching Fluid for.....	475	315	475	Assembling Operations, Elements of. Alfred Spangenberg.....	23	7	23
Cross-Slide Power Feed of the Acme Screw Machine.....	862	590	862	Aluminum Molds, Carborundum for.....	712		712	Assembling Vertical High-Speed Tur- bines. Howard M. Nichols.....	372	252	372
Acme Turret Lathe.....	1034	706	1034	American Die & Tool Co.: Portable Stock Racks.....	595	411	595	Assembly of Motor Cars, Efficient System for the Rapid, Harold Whiting Slauson.....	114		114
Acme Machinery Co.: Automatic Nut Tapper.....	961	657	961	Cold Cutting-Off Saw.....	595	411	595	Association of Licensed Automobile Manufacturers Automobile Show, Tenth.....	513	353	513
Acme Standard Thread Parts, Com- plete Dimensions of.....	699	483	699	Standard Punch and Holder.....	779	539	779	Atkinson, A. S.: How Old St Was Nearly Oslerized. Gas Engines in Shops.....	108	68	108
Adams Co.: Additions to the Line of Farwell Molding Machines.....	774	534	774	American Emery Wheel Works: Corundum Oilstones.....	694	478	694	Young Brains and Old.....	455	303	455
Farwell Squeezer Type Molding Ma- chine with Wall Bracket.....	863	591	863	American Exposition in Berlin Aban- doned.....	698	482	698	Light and Reliable Gas Engines.....	635		635
Adder, Keuffel & Esser Fraction.....	955	651	955	American Gas Furnace Co.: Automatic Temperature Regulator for Gas Furnaces.....	512	352	512	Atlas Machine Co.: Lunch Press.....	422	286	422
Adding Typewriter, The Ellis. Ralph E. Flanders.....	971			American Laminated Belt Co.: Laminated Leather Belt.....	595	411	595	Atlas Bench Power-Press.....	955	651	955
Adjusting Strip for Slides, Improved. Raquet.....	841	569	841	American Pulley Co.: All-Wrought Steel Pulley.....	961	657	961	Attachment and Compound Table for the Drill Press, Davis Milling.....	151	95	151
Adjustment for Automatic Center Punch.....	403	267	403	American Railway Master Mechanics Association Convention, Master Car Builders' Association Con- vention and.....	961	660	961	Attachment for Lathes, Draw-In Chuck.....	694	478	694
Advertising in Erecting Shop, German Method of.....	574	390	574	American Society of Mechanical Engi- neers: Spring Meeting of the.....	424	288	424	Attachment for "Star" Lathes.....	593	409	593
Advertising Machinery, Leon F. Hus- sey.....	709			Spring Meeting of the.....	871	599	871	Attachments for "Star" Lathes.....	854	582	854
Advertising Matter, Dating.....	1062	682	1062	Spring Meeting of the.....	964	660	964	Attachments, Rockford Hand Miller and.....	688	472	688
Advertising Value of.....	1017	683	1017	Joint Meeting of the A. S. M. E. and Institution of Mechanical En- gineers.....	1039	711	1039	Aurora Tool Works: Twenty-Inch Drill.....	337	233	337
Advertisement as Typical of What Commercial and Technical Articles Should Embody, The Modern.....	392	256	392	American Steam Motor Car, An. Frank C. Perkins.....	595	411	595	Authorities, Blind Acceptance of. Donald A. Hampson.....	50	26	50
Aerial Exhibition in Grand Palais, Paris.....	390		390	American Tool Works Co.: American Two-Foot and Three-Foot Radial Drills.....	156	100	156	Autogenous Welding in the Boiler Shop and Outfit for Railway Work. Automatic Bunting Machine Co.: Automatic Bunting Machine.....	779	539	779
Aerial Navigation, Chair in.....	347		349	American Twist Drill Co.: Clutch Planer Drive.....	595	411	595	Automatic Machine as a Civilizing Agent.....	463		463
Aerial Navigation in Australia, Novel Developments in.....	460	308	460	Clutch Planer Drive.....	595	411	595	Automatic Screw Machine, Unusual Work Done on the.....	651	435	651
Aerial Navigation, New Rotary Gas Engine for. Chester L. Lucas. John J. Ross.....	615			Four-Spindle Drill.....	248	168	248	Automobile Crank, Prize for a Safety. Automobile Engine, Pistons, Making Accurate, Jig and Tool Designer.....	403	267	403
Aerial Navigation Service, First.....	705			Precision Bench Lathe.....	248	168	248	Automobile Equalizing Gears, Manu- facturing, Ralph E. Flanders.....	275	179	275
Aerial Navigation, The Impracticabil- ity of Helium for.....	26	10	26	Bench Profiling Machine.....	249	169	249	Automobile Factory Practice, Ethan Viall.....	97	57	97
Aeronautic Motors, Light.....	207		207	Ames & Co., B. C.: Bench Milling Machine.....	779	539	779	Automobile Factory Practice, Nordyke & Marmon Co. Ethan Viall.....	333		
Aeronautic Motors, Suggestions in the Design of. Harry E. Dey.....	648			Ames Machine Co., Max: Making Solderless Cans for Food Products, Ralph E. Flanders.....	17	1	17	Olds Motor Works, Ethan Viall.....	911		911
Aeronautics in Germany, The Science of.....	314	210	314	Max Ams Double Pitman Press.....	1030	702	1030	Automobile for Use on Water as Well as Land, French.....	794		
Aeroplane and the Motor, Glenn H. Curtiss, The Man, The.....	126		126	Analyst: The Human Element.....	33		33	Automobile Industry, The Future of the.....	550	374	550
Aeroplane Contest, English.....	618		618	Anchors for Uncle Sam, Making Heavy Chain and. Chester L. Lucas.....	447	295	447	Automobile Industry, The Growth of the.....	112	72	112
Aeroplane Flight by Hamilton from New York to Philadelphia.....	940	636	940	Andrew & Co., M. L.: Andrew Automatic Cylinder Bor- ing Machine.....	329	225	329	Automobile Motors and Transmissions. Treatment of Gears for. Harold Whiting Slauson.....	122		122
Aeroplane Flight from London to Manchester.....	902	614	902	Angle Belt Drives, Locating, Glas- gow.....	116		116	Automobile Motors, Helical Timing Gears for. Ernest L. Smith.....	268		268
Aeroplane Flights—Albany to New York—New York to Philadelphia and Return.....	940	636	940	Angle by Combining the Feeds of a Boring Mill, To Obtain an.....	485	325	485	Automobile Output, Value of.....	108	68	108
Aeroplane, The Pneumatic Tire and the.....	113		113	Angle Shear, Universal Plate, Bar and.....	74	59	74	Automobile Parts Adopted by the A. L. A. M. Standard.....	121		121
Aeroplanes, Catalogues of.....	730	498	730	Angles of Hopper Side Intersections. Chas. M. Evans.....	478	318	478	Automobile Parts, Milling Fixtures for. E. H. Pratt.....	562	378	562
Aeroplanes, Danger of Electricity in. Aeroplanes, German Company Formed for the Making of Wright.....	747	507	747	Annealing Air-Hardening Steel.....	58	34	58	Automobile Piston Rings, Proportions of.....	484	321	484
Aeroplanes, Growth of the Building and Inventing of.....	357			Annealing Iron Castings that are too Hard to Machine.....	380		380	Automobile Show, Cincinnati.....	597	413	597
Aeroplanes, The Necessity of Light- Weight Motors for.....	436			Annealing Mixtures, Mica.....	779	539	779	Automobile Show, Tenth A. L. A. M. Automobile Show, Tenth International Automobile Springs.....	513	353	513
Agriculture, The Future of the Gas- oline or Alcohol Engine in.....	283	187	283	Anvil, Cascade Combination Bench.....	854	582	854	Automobile Springs, The Design of. Egbert R. Morrison.....	343		
Air at High Altitudes, Obtaining.....	383		383	Anros Co., P. S.: P. S. Anros Co.'s Beam Compass.....	320	216	320	Automobiles, Cleaning, J. B. Kemp. Automobiles Imported and Exported, Value of American.....	421	285	421
Air Compressor, Flickinger Combina- tion Gas Engine and.....	951	647	951	Apprentice Boy That New. A. B. Saw.....	48	24	48	Automobiles in Use, Statistics of.....	103	63	103
Air Compressor Testing, E. A. Fess- enden.....	530			Apprenticeship Certificate.....	781	541	781	Automobiles, Laying Out Steering Gears for. John L. Barra.....	701		701
Air Compressors, Comstock.....	681	465	681	Apprenticeship Conditions.....	374	254	374	Automobiles, Record Speed of.....	746	506	746
Air Compressors, High-Pressure Cyl- inder Diameters for. J. William Jones.....	1039		1039	Apprenticeship in the Baldwin Loco- motive Works. A. G. Bennett.....	909		909	Automobiles, The Import and Export of French.....	121		121
Air-Hardening Steel, Annealing.....	58	34	58	Apprenticeship System, Gould & Eber- hardt's, Fred L. Eberhardt.....	909		909	Averaging Instrument for Circular Chart Records, Bristol-Durand.....	961	657	961
Air Law for Workmen, Pure. C. M. Ripley.....	15		15	Apprenticeship System in Use in the United Shoe Machinery Co.....	475	315	475	Averbeck Shaper Co., H. J.: Averbeck 17-Inch Shaper.....	576	392	576
Airship—A Criticism, The Commer- cial, Forrest E. Cardullo.....	39		39	Good, J. F. Richman.....	358		358	Aviation Meet in America, The First. Leroy W. Allison.....	641		641
Airship Lines, in Germany and France, The Building of.....	208		208	Arbor, Cleveland Twist Drill Com- pany's Shell Reamer.....	495	335	495	Aviation Prize, French.....	178		178
Airship, Wireless Station to Deter- mine Location of.....	555		555	Arbor for Shell Reamer, W. A. Knight.....	57	33	57	Aviation Records at Rheims.....	131	75	131
Airship Zeppelin VII, Wreck of.....	1042	714	1042	Arcade Mfg. Co.: Squeezer Type Molding Machine.....	780	540	780	Aviation, The Perils of.....	1013	685	1013
A. L. A. M. Standard Automobile Parts Adopted by the.....	121		121	Area of Locomotive Exhaust Nozzles, Formula for.....	574	390	574	Axle Cutting-Off and Centering Ma- chine, Fawcous.....	442		
Alaska, A Machine Shop in. C. S. Brown.....	540	364	540	Areometer for Measuring Hides. Frank C. Perkins.....	839	567	839				
Alcohol Motors Compared, Gasoline and.....	291		291	Oliver.....	573	389	573				
Aligning Operations on Machine Tools, Laying-Out and. Alfred Spangenberg. 1.....	465		465								
2.....	552		552

Axle Work—Locomotive Building at the Juniata Shops, Wheel and. Ralph E. Flanders.....			701	Beardsley, E. W.: Crucible Furnace Construction for Gas Fuel.....	848	576	848	Bixler, Henry B.: The Operation and Care of Small Electrical Machinery.....	557		557
Axles, Special Machine for Milling Automobile Front.....	596	412	596	Bearing, A Loose Pulley.....	664	448	664	Blacksmith Shop, Suggestions for a Model, James Cran.....	104	64	104
Axles, The Manufacture of Car. E. D. Sewall.....			614	Bearing Metal, Self-Lubricating.....	779	539	779	Blade, Scraper with Ten-Sided Adjustable, L. Rosenthal.....	600	444	600
Babbitt-Metal, An Intermediate Grade of.....	58	34	58	Bearing, Oilless Roller.....	960	656	960	Blades, Broken Hack-Saw.....			358
Babbitting, Support for Shaft When S. C. Smith.....	401	265	401	Bearing, Sells Roller.....	583	399	583	Blake & Johnson Co.: Tool-Room and Vertical Grinder.....	596	412	596
Bachmann, H. J.: Hardening Small Blanking Dies.....	560	376	560	Bearing with Self-Contained Oil Pump, Joseph G. Horner.....	446			Arch Type Press.....	779	539	779
Installation of Stationary Gas Engines for Factory Use.....	746	506	746	Bearings in Crossheads, Hydraulic Press Tie-Rods with Solid Heads and, Benjamin Brownstein.....	658	442	658	Blank for Rolling Screw Threads, Calculating the Size of, J. F. Springer.....	179		181
Badge, F. J.: Oilstone Holding Handle.....	778	538	778	Bearings, Machining Split, John F. Winchester.....	479	319	479	Blank in the Lathe, Facing a Die, L. Rosenthal.....	935	631	935
Badger, H. Ralph: Hardening Carbon Steel.....	387		387	Becker Milling Machine Co.: Becker Friction Feed Vertical Milling Machine.....	315	211	315	Blanking Dies, Hardening Small, H. J. Bachmann.....	560	376	560
Bailey, Harry: Method of Holding Small Screws.....	665	449	665	Becker, O. M.: Observations on the Making of High-Speed Steel Tools.....	5		5	Blanks, Forming Tool for Bevel Gear, Blanks, Iron for Gear.....	756	516	756
Bailey, Obittuary of Charles E.....	966	662	966	Beds—Foss Gas Engine Co., Machining Gas Engine Flywheels, Cylinders and, Ethan Viall.....	619	419	619	Blast Furnace, Swedish Experimental Electric, Kelly Sand.....	596	412	596
Bailey, Obittuary of Jonathan.....	699	483	699	Belt A. R.: Foreign Articulated Locomotives, Steam Turbine Electric Locomotive.....	263		263	Bleriot's Flight Across the English Channel.....	33		33
Baird Machine Co.: Baird Wire-Forming and Stamping Machine.....	416	280	416	Belt Casting in the World, Largest, Joseph G. Horner.....	1007		1007	Blevney, John C.: Blevney Tube Polishing Machine.....	695	479	695
Baird Wire-Forming, Ferruling and Stamping Machine.....	591	407	591	Belt Founding in Old France, Joseph G. Horner.....	1007		1007	Bliss Co., E. W.: Bliss Horizontal Shearing Machine.....	60	45	60
Baird Large Oblique Tilting Tumbler.....	763	523	763	Belt, Large Casting of.....	116		116	Bliss Power Press for Heavy Cold Stamping.....	419	283	419
Baird Double Oblique Tilting Tumbler.....	862	590	862	Belt Drives, Locating Angle, Glasgow.....	116		116	Bliss Mfg. Co., E. C.: Milling Attachment for the Drill Press.....	249	169	249
Baird Tool and Die Grinder.....	952	648	952	Belt Failures, Some Causes of, G. S. Baker.....	212		212	Tumbling Barrel.....	960	656	960
Baker Bros.: Baker Bros. No. 0 Cylinder Boring Machine.....	319	215	319	Belt Fastener, Hinge-Joint.....	866	594	866	Bliss, Obittuary of Frank L.....	77	53	77
Baker Two-Cylinder Automatic Cylinder Boring Machine.....	678	462	678	Belt in the World, The Largest.....	611		611	Block, Nicholson Driving.....	594	410	594
Baker, G. S.: Some Causes of Belt Failure.....	212		212	Belt Kinks, Tad.....	841	569	841	Blotfield, Arthur: Box-Square with Holder.....	847	575	847
Balance, Machine for Testing Running.....	423	287	423	Belt Lacing Device, Mumford Wire Hinge.....	509	349	509	Blotting Fresh Ink Lines, To Avoid, Walter Gribben.....	51	27	51
Baldwin Locomotive Works, Apprenticeship in the.....	712		712	Belt Lacing Tool, Hammond Wire.....	322	218	322	Blount, H.: Section-Liner.....	1026	698	1026
Ball Turning Device for Libby Turbine Lathe.....	694	478	694	Belt, Laminated Leather.....	595	411	595	Blow Torch, Hauck Kerosene.....	858	586	858
Bancroft, Obittuary of Joseph B.....	338	234	338	Belt Shifter, International.....	1033	705	1033	Blower and Vacuum Pump, Leiman Rotary.....	417	281	417
Band-Saw Machine for Cutting Metal.....	492	332	492	Belt-Shifter, Socket for.....	604	448	604	Blower, Funk Machine Co.'s Positive Pressure.....	489	329	489
Bands, To Obtain the Length of Stock for, Joseph Weaver.....	57	33	57	Belt Thickness on Pulley Speed, Influence of.....	848	576	848	Blower Piston Profiles, Root's.....	548	372	548
Bar and Angle Shear, Universal Plate Bar and Protractor for the Lathe, Combination Test, E. E. Martin.....	753	513	753	Belting, Determining Comparative Values of Leather.....	984		984	Blower, Sturtevant Electric Forge.....	758	518	758
Barnes Co., W. F. & John: Barnes Horizontal Radial Drill with Four Heads.....	412	276	412	Belting on Pulleys with Axes at an Angle.....	666	450	666	Blowers, New Designs of Forge.....	596	412	596
Barnes 15-Inch Drill.....	802	590	802	Belting, The Use of the Best Part of Hide for Leather.....	20	4	20	Bue Ink Lines Show up on Blue-Prints, To Make.....	450	298	450
Barnes Drill Co.: Barnes 24-Inch Upright Drill.....	246	166	246	Belts of Single Thickness, Allowable Stress of.....	917		917	Blue-Line Prints, Method of Making, A. G. Pancoast.....	928	624	928
Barnes All-Geared Tapping Machine with Automatic Reverse.....	953	649	953	Belts, The Transmission of Power by Steel.....	832		832	Blue-Line Prints, Simple Method of Making, Bruce C. McAlpine.....	754	514	754
Barnes, Herbert C.: Simple Fixtures for Making Worms and Worm Gears.....	55	31	55	Bench and Vise Stand, Combination.....	512	352	512	Blue Lines on White Ground, Prints with, Robert Grimshaw.....	1023	695	1023
Barr, H. G.: Barr No. 7 Toolmaker's Drilling Machine.....	577	393	577	Bench Drill, Rockford Ten-Inch.....	246	166	246	Blue-Print Reading, A Night-School Course in, George A. Hepke.....	20	4	20
Automatic Tapping Attachment for Barr Drill Presses.....	680	464	680	Bend Tapered Brass Tubes, How to.....	484	324	484	Blue-Print Storage Tube.....	423	287	423
Barr Drilling and Tapping Machine.....	1034	706	1034	Bender, Angle.....	74	50	74	Blue-Print Washing Machine.....	75	51	75
Barra, John L.: Laying Out Steering Gears for Automobiles.....	701		701	Bender, Underwood Pipe.....	860	588	860	Blue-Prints, Restoring Over-Exposed, Ralph W. Davis.....	144	88	144
Barrel Rollers, "Hoodoo" Number of Operations, Rifle.....	742	502	742	Bending and Straightening Machine, German.....	47	23	47	Blue-Prints, Solution for Clearing, E. Ray Croft.....	937	633	937
Barrel, Tumbling.....	960	656	960	Bending and Torsion, Formulas for Combined.....	551		551	Bluing Iron and Steel, The Niter Process for.....	636		636
Barrel, Tumbling.....	1038	710	1038	Bending Corner Pieces, Press Tool for, C. Pettigean.....	231	151	231	Board Drop-Hammer Design, H. Terhune.....	208		208
Barrett, D. O.: The Calculation of Crankshafts for Internal Combustion Engines.....	610		610	Bending Die, A Engineer.....	140	84	140	Boiler Incident, A Steam.....	274		274
Irregular Spacing for Reamers.....	755	515	755	Bending Die, Built-Up Reversible-Section.....	1023	695	1023	Boiler Projected to Great Height, Exploded.....	265		265
Simple Method of Making a Drill Jig.....	1020	692	1020	Bending, Force Required for.....	909		909	Boiler Shop and Outfit for Railway Work, Autogenous Welding in the.....	525		525
Barrett, Geo. E.: Deflection of Beam Uniformly Loaded for Part of its Length.....	446		446	Bending Form for Spiral Scrolls, Herman Jonson.....	232	152	232	Bollers and Chimneys, A Wind.....	350		350
Barrett, O. R.: Clamping Long and Slender Work.....	568	384	568	Bending Forms for the Bulldozer, Compound, Ethan Viall.....	41	20	41	Boilers, Longitudinal Joint for.....	383		383
Barrows, F. W.: Pipe Fittings—Theory vs. Practice in Their Manufacture.....	203	131	203	Bending Machines, Cox Pipe and Tube.....	410	274	410	Boilers, Method for the Prevention of Rust Inside.....	214		214
Establishing a Commercial Standard for Pipe Fittings.....	735		735	Bending Machines, Watson-Stillman Hydraulic.....	673	457	673	Bollinckx, H.: Ratchet Tap Wrench.....	821		821
Barry & Zecher Co.: Friction-Driven Sensitive Drill Press.....	867	595	867	Bending Pipe and Angle Iron, Machine for, T. O. Martin.....	843	571	843	Bolsters for Presses, Die-Beds or Dobbro.....	367	247	367
Bashlin Tool Works: Pneumatic Chuck.....	960	656	960	Bending Sheet Steel and Iron, Power Required for.....	938	634	938	Bolt and Clamping Device, Adjustable.....	337	233	337
Bates Numbering Machine Co.: Bates Metal Numbering Machine.....	163	107	163	Bennett, A. G.: Apprenticeship in the Baldwin Locomotive Works.....	712		712	Bolt and Rivet Groups, Designing Eccentrically Loaded, Harry Gwiner.....	739		739

Dies and Punches for Making Nuts, 110 70 110	110	70	110

	Eng.	Shop.	Ry.		Eng.	Shop.	Ry.		Eng.	Shop.	Ry.
Dies for Covering Buttons. Charles Weslow	30	14	30	Drill, Cincinnati Portable Electric Radial	675	459	675	Drills, Cincinnati-Bickford 2 1-2, 3, and 3 1-2-Foot Radial	495	335	495
Dies for Hollow Rivets, Drawing. Charles Weslow	134	78	134	Drill, Double-Head Traverse	960	656	960	Drills, Heavily Designed Radial	960	656	960
Dies, Hardening Small Blanking. H. J. Bachmann	560	376	560	Drill, Electrical Radial	1037	709	1037	Drills, Improved Upright and Radial	961	657	961
Dies on Thick Stock, Use of Sub-Press. Frank B. Shalor	938	634	938	Drill, etc., Ashcroft Valve Grinder, Breast	780	540	780	Drills, Mechanics' Machine Co.'s 20- and 26-Inch Upright Gang	159	163	159
Dies, Pipe Fitters' Kink for Starting	752	512	752	Drill for Paper, A	139	83	139	Drills, New Line of Upright	249	169	249
Dies, Vanadium Forging	337	233	337	Drill, Four-Spindle	248	168	248	Drills, Rockford Multiple Spindle	411	275	411
Differential Screw Fallacy, The. Wilfred Lewis	752	512	752	Drill, Fox Multiple Spindle	421	285	421	Drills, Rockford Sensitive Bench	762	522	762
Dimensions of Acme Standard Thread Parts, Complete	609	483	609	Drill Grinder, Automatic Twist	1027	690	1027	Drive, A Variable Lineal Speed. Edward Person	49	25	49
Dimensions of Gears from Samples, Determining. E. Winslow Baxter	898	898	898	Drill Grinder, Improvements in the "Yankee"	328	224	328	Drive, Cincinnati Two-Speed Planer	70	46	70
Disk Brake, Formulas for Calculating a Friction. John Will	485	325	485	Drill, Heavy-Duty Radial	867	595	867	Drive, Clutch Planer	595	411	595
Disk Brake, Mean Radius of the Frictional Forces of a. John S. Myers	924	924	924	Drill, Henry & Wright Multiple Spindle	1037	709	1037	Drive, Coates Mangrel Gear Universal Coupling	245	165	245
Disk Grinder	249	169	249	Drill, "Highpower" Twisted	74	50	74	Drive, Cone vs. Geared. R. K. Le Blond	916	916	
Disk Grinder, Besly Horizontal	74	50	74	Drill, Holder, Linsley Lathe	953	649	953	Drive for Drills and Reamers. Bruce C. McAlpine	143	87	143
Dividers, Micrometer Attachments for Setting. L. E. Kramer	483	323	483	Drill, Holtzer-Cabot Universal	336	232	336	Drive for No. 60 Screw Machine, Motor	695	479	695
Dividing a Circle into Equal Parts. George B. Grant	932	628	932	Drill, 36-Inch Radial	423	287	423	Drive for Pond Planers, Electrically Controlled Reversing	958	654	958
Dividing a Circle into Equal Parts. Robert Wilkinson	754	514	754	Drill, Inventor of the Sensitive	574	390	574	Drive for "Star" Lathes, Seneca Falls Motor	330	226	330
Dividing Engine—Early Machine Tools, Donkin's. W. S. Davenport	985	985	985	Drill Jig, Simple Method of Making a. D. O. Barrett	1020	692	1020	Drive, Four-Belt Planer	595	411	595
Dividing Head, Kemp Smith New Universal	504	344	504	Drill, Kern High-Speed Sensitive	854	582	854	Drive in the Machine Shop, Electric	290	194	290
Dividing Wheel, Working a Precision	545	369	545	Drill, Kern 25-Inch High-Speed Upright	591	407	591	Drive, New Type of Chain	1039	711	1039
Dodge, Obituary of Thomas H.	690	483	690	Drill, Lanchester Six-Spindle Gang	247	167	247	Drive of Turbine Pumps, Electric	269	269	
Donkin's Dividing Engine—Early Machine Tools. W. S. Davenport	985	985	985	Drill, Leland Sensitive Multi-Spindle	330	226	330	Drive, Punch Presses with Westinghouse Motor	596	412	596
Donnerberg, H.: Adjustable Electric Lamp Bracket for the Shop	140	84	140	Drill, Mechanics' Machine Co.'s No. 32 Upright	691	475	691	Drive, The Bateman Planer. Joseph G. Horner	709	709	
Don'ts for Draftsmen. H. E. Wood	962	658	962	Drill, Moline Continuous Six-Spindle	503	343	503	Drive, Turbine Pump Motor	291	291	
Don'ts for Machinists. H. E. Wood	549	373	549	Drill, Moline Multiple Spindle	500	340	500	Driver, Screw	74	50	74
Don'ts for Pattern-Makers. H. E. Wood	366	246	366	Drill, Moline Multiple Spindle	1034	706	1034	Driving Block, Nicholson	594	410	594
Don'ts for Planer Men. Donald A. Hampson	809	553	809	Drill, Motor-Driven Sensitive	74	50	74	Driving Box Manufacture at the Juniata Shops—Locomotive Building at Altoona. Ralph E. Flanders	877	877	
Don'ts for Screw Machine Operators. Paul W. Abbott	230	150	230	Drill, Mueller Radial	770	530	770	Driving Boxes, Casting Crown-Brasses Directly into Locomotive. Ethann Viall	443	443	
Don'ts for the Prevention of Accidents in the Machine Shop. H. P. Wentworth	939	635	939	Drill, Need of a Level on a Motor. A. Nielsen	569	385	569	Driving Boxes, Center Rest for. A. G. Johnson	313	209	313
Dooley, W. H.: Labor Conditions in American and German Machine Shops and Foundries	1005	1005	1005	Drill, Portable Electric	779	539	779	Driving Boxes, Forging	50	26	50
Dorbro: Die-Beds or Bolsters for Presses	367	247	367	Drill Press, Colburn 24-Inch Heavy-Duty	311	207	311	Driving Boxes, Laying Out and Boring. A. G. Johnson	531	531	
Dorman, J. H.: Tapping Attachment	1037	709	1037	Drill Press, Compound Table for the	151	95	151	Driving Boxes, Machining Locomotive. W. H. Snyder	712	712	
Dotting Arrangement, A Simple. Fred Horner	930	626	930	Drill Press, Davis Milling Attachment and Compound Table for the	151	95	151	Driving Machine, Reynolds Radial Screw	335	231	335
Dovetails, Tool for Planing. J. Gray	755	515	755	Drill Press, Elmore Sensitive	951	647	951	Driving Wheels in a McCabe Double-Spindle Lathe, Turning Locomotive	870	598	870
Drafting-Board, Sixty-Degree	248	168	248	Drill Press, Friction-Driven Sensitive	867	595	867	Drives, Locating Angle Belt. Glasgow	116	116	
Drafting Machine, Key-Operated	1003	1003	1003	Drill Press, Manufacturing the Sibley High-Speed	1040	712	1040	Drop Forging Co.: "Spartan" Chain Pipe Wrench	595	411	595
Drafting-Room and Shop, Planer Letters and Figures in the Designer	929	625	929	Drill Press, Milling Attachment for the	249	169	249	Drop Forgings, etc., Heating Furnaces for	595	411	595
Drafting-Room of the Taft-Pierce Manufacturing Co.	831	831	831	Drill Press, Modern 20-Inch	861	589	861	Drop-Hammer Design, Board. H. Terhune	208	208	
Drafting Table	245	165	245	Drill Press, Motor-Driven Avey Sensitive	412	276	412	Drop Hammer, Large	248	168	248
Drafting Table, Fritz "Ideal"	503	343	503	Drill Press, Plate Locating Fixture for. C. F. Emerson	567	383	567	Drop Hammers, Line of Poppet	74	50	74
Draftsmen, A Kink for. J. H. Schultheiss	310	206	310	Drill Press, Sibley High-Speed	244	164	244	Dry-Plate Photography, Time of Exposure for	399	263	399
Draftsmen, Don'ts for. H. E. Wood	962	658	962	Drill Press, Support for Centered Work on the. Charles E. Burns	664	448	664	Drying Machine, Centrifugal Hot-Air Polishing and	336	232	336
Drainage in One-Story Shop Design, Light, Ventilation and	612	612	612	Drill Press Vise. Mitchell-Parks	160	104	160	Ducharme, W. S.: Alligator and Combination Wrenches	422	286	422
Draw, Learn to	296	134	296	Drill Press Valve Grinding Attachment. A. G. Kenyon	395	259	395	Dudgeon, Richard: "Universal" Hydraulic Jack	577	393	577
Drawing and Boring Press	867	595	867	Drill Press, Variable Speed Sensitive	422	286	422	Dudley, Obituary of Dr. Charles B.	428	292	428
Drawing-Board, Large Compact. Ralph W. Davis	54	30	54	Drill Press with Positive Geared Feed, Hoefler	62	38	62	Duff Mfg. Co.: Independent Pump Hydraulic Jack	511	351	511
Drawing-Boards, Cover for, Designer	936	632	936	Drill Press with Universal Table	75	51	75	Dust-Blowing Sol. Sturtevant Electric	504	410	504
Drawing Dies for Hollow Rivets. Charles Weslow	134	78	134	Drill Presses, Automatic Tapping Attachment for Barr	680	464	680	Dwight Slate Machine Co.	951	647	951
Drawing Outfit, Convenient. Martin Joachimson	308	204	308	Drill, Rockford Ten-Inch Bench	246	166	246	Elmore Sensitive Drill Press	951	647	951
Drawing Press, Ferracute Double-Crank Toggle-Joint	153	97	153	Drill, Sibley High-Speed Geared	497	337	497	Dynamometer for Testing Gasoline and Other Motors, Fan	512	352	512
Drawing Seamless Automobile Lamp Hoods, Tools for. William A. Painter	454	303	454	Drill, Snyder 20-Inch	1034	706	1034	Dynamometer, Turbine	337	233	337
Drawing Stand, Swinging Ink-Bottle, Holder for. H. J. Kennedy	52	28	52	Drill Socket	110	70	110				
Drawing with Cross-Section Paper Under Tracing Cloth. Ralph W. Davis	232	152	232	Drill, Standard Improved Oil Tube	945	641	945

Wax, Jewelers', Arthur A. Racicot	380		380	Method of Lapping Piston Rings in a Lathe	934	630	934	Wrench, "Twin-Grip" Automobile	595	411	595
Wax Tapers for Cores, Receipt for Making. John B. Sperry	937	633	937	Wilcox, Obituary of Carl	252	172	252	Wrench, "Vulcan-Bijou" Chain Pipe	595	411	595
Weaner, Joseph:				Willey & Russell Mfg. Co.:				Wrench with Interchangeable Sockets, Tap	1026	698	1026
Drawing of V-Threads	56	32	56	Willey & Russell Threading, Tapping and Cutting-Off Machine	857	585	857	Wrench, Wright Quick-Adjusting Pipe	683	467	683
Hardening a Small Drill and Counter-Sink	56	32	56	Wilkinson, Robert:				Wrenches, Alligator and Combination	422	286	422
To Obtain the Length of Stock for Bands	57	33	57	Dividing a Circle into Equal Parts	754	514	754	Wrenches, "Arpeco" Pipe and Nut	511	351	511
Webb Hinge Bolt Hook Co.:				Wilkinson, W. E.:				Wrenches in Sets, Double-End Angle	511	351	511
Hinge-Joint Bolt Fastener	866	594	866	Some Economies in Making Drawings	396	260	396	Wright, J. F.:			
Webster & Perks Tool Co.:				Will, John:				Wright Quick-Adjusting Pipe Wrench	683	467	683
Bolt Pointing Machine	218	168	218	Formulas for Calculating a Friction Disk Brake	485	325	485	Wright, Newton:			
Weights of Cylindrical Pressure Tanks. C. R. Whittier	915		915	Willey Machine Co.:				Formulas for Train Acceleration	530		530
Weights of Rolled Stock, Estimating. Robert S. Brown	932	628	932	Willey Motor-Driven Bench Drill	591	407	591	Wrist-Pin, Grease Cup in the. Austin G. Johnson	753	513	753
Weights of Steel Plates, Calculating the. Frank W. Holcomb	933	629	933	Willey Portable Electric Breast Drill	693	477	693	Writer, The Value of the Technical	550	374	550
Weir & Craig Mfg. Co.:				Williams & Co., J. H.:				Yale & Towne Mfg. Co.:			
Air Hoist	779	539	779	"Vulcan" Auto Tool	511	351	511	Bi-Centric Master-Keyed Padlock	337	233	337
Weiss, E. H.:				"Vulcan-Bijou" Chain Pipe Wrench	595	411	595	Yoder, Howard D.:			
Cutting Small Spur Gears in Special Semi-Automatic Machine	547	371	547	Williams & Co.'s Motion Sample Boards, J. F.	940	636	940	Removing Broken Deep-Well Pump Rod	309	205	309
Special Universal Vise for Gang Planting	565	381	565	Williams, R. H.:				Young Machine & Tool Co.:			
				Process for Hardening Cast Iron	398	262	398	Fourteen-Inch Engine Lathe	961	657	961
				Williams, R. J.:				Young Machine & Tool Co.'s Lathe Milling Attachment	1029	701	1029
				Simplified Methods for Fly-Wheel Calculations	124		124	Zeppelin VII, Wreck of Airship	1042	714	1042

Index for engineering, shop and railway editions, inclusive. Page numbers of respective editions in columns headed "Eng. Shop Ry."
